

A Resource Guide for Healthy Living in Calumet County

U CAN
Eat Smart + Move More

This resource guide, organized by community, is offered by Calumet County Activity & Nutrition Coalition (U-CAN) and Calumet County Health and Human Services

- Health Division to assist residents with being physically active. The activities are available at various places throughout the county with the focus being low to no cost activities. A map is provided at the end of each section with the location of each activity. To get the most of the guide, be sure to review the opportunities available in each community.

We are sure you will be amazed at the variety of offerings available in the county. You might even discover some new activities that you never thought of such as snowshoeing at the local nature centers, aquatic classes at one of our many pools, or learning how to play disc golf. The county is home to several yearly events that focus on physical activity, as well.

This resource guide also includes local information to assist in healthy eating. A listing of the farmers markets and farmstands offering fresh produce in the county can be found in the final pages.
